

# FIRESCOPE

TLE Incidents (Active Shooter) – Multi-Branch Response Organization: The Operations Section Chief and a Deputy Operations Section Chief may switch roles based upon the current priorities of the incident as well as the individual discipline; i.e. Law Enforcement or Fire. Rescue Group and Rescue Task Forces may be assigned to the Law Branch or Fire Branch depending on the status or level of threat. The higher the level of threat, the more consideration there should be to assign the Rescue Group and Rescue Task Forces to the Law Branch. Air Operations is established to manage aerial recon and air ambulance transportation. Any group supervisor can delegate authority to maintain span of control.
